

Uncertainty  
Modeling

```
graph TD; A([Uncertainty Modeling]) --- B([Computer Algebra System]); B --- C([Array Computation]); C --- D([C]); C --- E([CUDA]);
```

The diagram is a vertical hierarchy. At the top is an oval containing the text 'Uncertainty Modeling'. A vertical line connects it to a second oval below, containing 'Computer Algebra System'. Another vertical line connects this to a third oval below, containing 'Array Computation'. From the bottom of the 'Array Computation' oval, two diagonal lines branch out to two separate ovals at the bottom: the left one contains 'C' and the right one contains 'CUDA'.
